

Corporate Social Responsibility policy

Our approach to Corporate Social Responsibility (CSR) is based on the principle: that WorkSpace IQ will make a positive difference to the workplaces, communities and environments in which we work through encouraging sustainable practices which empower people to:

- Look after their own health at work
- Purchase products which are recyclable
- Learn more efficient and effective ways to train staff in workplace wellness to reduce the reliance on outside specialists except in more severe pain or injury situations.

We actively look at ways within our own organisation to encourage corporate responsibility through:

- Reducing waste by using furniture and office products which are at least 90% recyclable
- Using local suppliers to help reduce transport costs and effect on the environment
- Health and wellbeing – encouraging all staff to maintain a healthy balanced lifestyle
